Report ??, California Institute of Technology, Pasadena, CA, USA, February 1952. 2000 pp. Little is known about this report on the plans for use of nuclear weapons in Europe in the event of a Soviet invasion. The Air Force strongly opposed the conclusions of this report, and according to [Mon13, page 587], most copies were destroyed on the orders of Thomas Finletter, Secretary of the Air Force, and the remainder were locked up. The Secretary, and General Vandenberg, Air Force Chief of Staff, also ordered that Oppenheimer was henceforth to be denied access to Air Force classified documents, and not to be used as a consultant to the Air Force. According to [McC04, page 340], the two-volume report was partially declassified in 1980, and a redacted version was released. For more on this report, see also [McC05] and [Ell86].
