FROM THE INSTITUTIONAL REPORTS EDITOR

With this issue the SIGNUM Newsletter begins providing an online version of its Institutional Reports column. Point your Web browser to `http://www.netlib.org/signum-reports/` to see the new online offerings.

Going online should offer advantages both to readers and to submitters of report listings. Exactly what direction the online service takes, however, will depend on feedback we get from you. The easiest way to send your ideas is to visit the Web page and click a button. If you don't have Web access, see my address on the inside front cover for other ways to reach me.

Tom Rowan

CURRENT INSTITUTIONAL REPORTS

Please note: Reports can be obtained by writing to the person or address given for the publishing institution. We recommend requesting reports by author, title and number, since the information listed in this column has been transcribed at least once from the original sources. URLs included in the contact's address point to reports that are available online.
