

# Current Institutional Reports \*

SIGNUM Newsletter Volume 32, Number 3

July 1997

## Argonne National Laboratory

Math and Computer Science Division  
Argonne National Laboratory  
9700 Cass Avenue  
Argonne, IL 60439  
Attn: Dr. Gail Pieper  
URL: <http://www.mcs.anl.gov/Divisional/publications.html>

- [1] John Michalakes. FLIC: A translator for same-source parallel implementation of regular grid applications. Technical Memorandum ANL/MCS-TM-223, Argonne National Laboratory, February 1997.
- [2] R. B. Lehoucq. Truncated QR algorithms and the solution of large-scale eigenvalue problems. Preprint ANL/MCS-P648-0297, Argonne National Laboratory, 1997.
- [3] W. Gropp and E. Lusk. Sowing MPICH: A case study in the dissemination of a portable environment for parallel scientific computing. Preprint ANL/MCS-P650-0297, Argonne National Laboratory, March 1997.
- [4] W. Gropp and E. Lusk. A high-performance MPI implementation on a shared-memory vector supercomputer. Preprint ANL/MCS-P651-0297, Argonne National Laboratory, March 1997.
- [5] W. Gropp and J. J. More'. Optimization environments and the NEOS server. Preprint ANL/MCS-P654-0397, Argonne National Laboratory, March 1997.

---

\*Reports can be obtained by writing to the person or address given for the publishing institution. We recommend requesting reports by author, title, and number, since the information listed in this column has been transcribed at least once from the original sources. URLs included in the contact's address point to reports that are available online. SIGNUM Newsletter Institutional Reports columns and their BibTeX bibliographies are available online at <http://www.netlib.org/signum-reports/>

- [6] L. Wos. Programs that offer fast, flawless, logical reasoning. Preprint ANL/MCS-P655-0397, Argonne National Laboratory, April 1997.
- [7] V. E. Taylor, M. Huang, T. Canfield, R. Stevens, D. Reed, and S. Lamm. Performance modeling of interactive, immersive virtual environments for finite element simulations. Preprint ANL/MCS-P656-0397, Argonne National Laboratory, May 1997.
- [8] S. Fitzgerald, I. Foster, C. Kesselman, G. von Laszewski, W. Smith, and S. Tuecke. A directory service for configuring high-performance distributed computations. Preprint ANL/MCS-P662-0597, Argonne National Laboratory, June 1997.
- [9] J. G. Michalakes. RSL: A parallel runtime system library for regional atmospheric models with nesting. Preprint ANL/MCS-P663-0597, Argonne National Laboratory, July 1997.

## Bell Labs

URL: <http://netlib.bell-labs.com/cm/cs/doc/nam.html>

- [1] P. Fiebach, R. W. Freund, and A. Frommer. Variants of the block-QMR method and applications in quantum chromodynamics. Technical Report 97-3-01, Bell Labs, 1997.
- [2] R. W. Freund and M. Malhotra. The block-QMR method for the solution of multiple radiation and scattering problems in structural acoustics. Technical Report 97-3-02, Bell Labs, 1997.
- [3] R. W. Freund. Preconditioning of symmetric, but highly indefinite linear systems. Technical Report 97-3-03, Bell Labs, 1997.
- [4] R. W. Freund and P. Feldmann. The SyMPVL algorithm and its applications to interconnect simulation. Technical Report 97-3-04, Bell Labs, 1997.

- [5] Jr. W. M. Coughran and R. W. Freund. Recent advances in Krylov-subspace solvers for linear systems and applications in device simulation. Technical Report 97-3-05, Bell Labs, 1997.
- [6] R. W. Freund and P. Feldmann. Reduced-order modeling of large linear passive multi-terminal circuits using matrix-Pade approximation. Technical Report 97-4-03, Bell Labs, 1997.
- [7] P. Feldmann and R. W. Freund. Interconnect-delay computation and signal-integrity verification using the SyMPVL algorithm. Technical Report 97-4-05, Bell Labs, 1997.

## Cambridge

Dept. of Applied Mathematics and  
Theoretical Physics  
University of Cambridge  
Silver Street  
Cambridge CB3 9EW  
England  
0223 337900  
email: Karen@amtp.cam.ac.uk
