Broom:1989:GIT

[20] M. A. Broom, S. P. Holmes, and T. R. Hopkins. A graphical interface for Toolpack/1. *Information and Software Technology*, 31:305–312, 1989.

El-Giar:1989:GCMa

[21] O. El-Giar and T. R. Hopkins. A generally configurable multigrid implementation for transputer networks. In J. Wexler, editor, *Developing Transputer Applications*, pages 80–88. IOS, Amsterdam, 1989. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/23-92.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/23-92`.

El-Giar:1989:PSL

[22] Mohamed Osama El-Giar and Tim Hopkins. The parallel solution of linear elliptic equations using hopscotch algorithms. Technical Report 62, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., June 1989. Published as [27]. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/62.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/62`.

Hopkins:1989:TDFa

[23] T. R. Hopkins and P. H. Welch. Transputer data-flow solutions for systems of linear equations. In G. R. Joubert, D. J. Evans, and F. J. Peters, editors, *Parallel Computing '89 – Proceedings of the International Conference, Leiden*, pages 195–200. North Holland-Elsevier Science Publishers, Amsterdam, New York, Oxford, 1989. An extended version of this paper is available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/68.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/68`.

Hopkins:1989:TDFb

[24] Tim Hopkins and Peter Welch. Transputer data-flow solution for systems of linear equations. Technical Report 68, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., September 1989. An extended version of [23]. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/68.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/68`.

El-Giar:1990:GCMa

[25] O. El-Giar and T. R. Hopkins. A generally configurable multigrid implementation for the solution of three-dimensional elliptic equations on a transputer network. In T. L. Kunii and D. May, editors, *Transputer/occam Japan 3*, pages 35–45. IOS, Amsterdam, 1990. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/79.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/79`.

El-Giar:1990:GCMb

[26] Mohamed Osama El-Giar and Tim Hopkins. A generally configurable multigrid implementation for the solution of three-dimensional elliptic equations on a transputer network. Technical Report 79, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., October 1990. Published as [25]. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/79.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/79`.

El-Giar:1990:PSL

[27] O. El-Giar and T. R. Hopkins. The parallel solution of linear elliptic equations using Hopscotch algorithms. In L. Freeman and C. Phillips, editors, *Applications of Transputers 1 – Proceedings of the First International Conference on Applications of Transputers, Liverpool*, pages 151–159. IOS, Amsterdam, 1990. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/62.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/62`.

Hopkins:1990:DMEa

[28] T. R. Hopkins and B. J. Vowden. Distributing matrix eigenvalue calculations over transputer arrays. In H. S. M. Zedan, editor, *Real-time Systems with Transputers*, pages 305–312. IOS, Amsterdam, 1990. Available as a compressed Postscript file from `unix.hensa.ac.uk`

in the file pub/misc/ukc.reports/comp.sci/reports/81.ps.Z; abstract in the file pub/misc/ukc.reports/comp.sci/abstracts/81.

Hopkins:1990:DMEb

[29] Tim Hopkins and Barry Vowden. Distributing matrix eigenvalue calculations over transputer arrays. Technical Report 81, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., October 1990. Published as [28]. Available as a compressed Postscript file from unix.hensa.ac.uk in the file pub/misc/ukc.reports/comp.sci/reports/81.ps.Z; abstract in the file pub/misc/ukc.reports/comp.sci/abstracts/81.

Bakkers, editors, *Transputing '91*, pages 159–169. IOS, Amsterdam, 1991. Available as a compressed Postscript file from unix.hensa.ac.uk in the file pub/misc/ukc.reports/comp.sci/reports/80.ps.Z; abstract in the file pub/misc/ukc.reports/comp.sci/abstracts/80.

Cunha:1991:POAb

[36] Rudnei Dias da Cunha and Tim Hopkins. Parallel overrelaxation algorithms for systems of linear equations. Technical Report 80, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., January 1991. Published as [35]. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/80.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/80`.

Cunha:1991:PST

[37] Rudnei Dias da Cunha and Tim Hopkins. The parallel solution of triangular systems of linear equations. Technical Report 86, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., June 1991. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/86.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/86`.

Cunha:1992:PSPa

[38] R. D. da Cunha and T. R. Hopkins. The parallel solution of partial differential equations on transputer networks. In J. Luo and G. L. Reijns, editors, *Transputing for Numerical and Neural Network Applications*, pages 96–109. IOS, Amsterdam, 1992. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/17-92.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/17-92`.

Cunha:1992:PSPb

[39] Rudnei Dias da Cunha and Tim Hopkins. The parallel solution of partial differential equations on transputer networks. Technical Report 17-92, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., June 1992. Published as [38]. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc. reports/comp.sci/reports/17-92.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/17-92`.

Cunha:1992:PSSa

[40] R. D. da Cunha and T. R. Hopkins. The parallel solution of systems of linear equations using iterative methods on transputer networks. In J. Luo and G. L. Reijns, editors, *Transputing for Numerical and Neural Network Applications*, pages 1–13. IOS, Amsterdam, 1992. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc. reports/comp.sci/reports/16-92.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/16-92`.

Cunha:1992:PSSb

[41] Rudnei Dias da Cunha and Tim Hopkins. The parallel solution of systems of linear equations using iterative methods on transputer networks. Technical Report 16-92, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., June 1992. Published as [40]. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc. reports/comp.sci/reports/16-92.ps.Z`; abstract in the

file pub/misc/ukc.reports/comp.sci/abstracts/16-92.

El-Giar:1992:GCM

[42] Osama El-Giar and Tim Hopkins. A generally configurable multigrid implementation for transputer networks. Technical Report 23-92, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., September 1992. Published as [21]. Available as a compressed Postscript file from unix.hensa.ac.uk in the file pub/misc/ukc. reports/comp.sci/reports/23-92.ps.Z; abstract in the file pub/misc/ukc.reports/comp.sci/abstracts/23-92.

Hopkins:1992:CIAa

[43] Tim Hopkins and David Morse. Cumulative index to the ACM algorithms. Technical Report 24-92, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., October 1992. Available as a compressed Postscript file from unix.hensa.ac.uk in the file pub/misc/ukc.reports/comp.sci/reports/24-92.ps.Z; abstract in the file pub/misc/ukc.reports/comp.sci/abstracts/24-92.

Hopkins:1992:CIAb

[44] Tim Hopkins and David Morse. Cumulative index to the applied statistics algorithms. Technical Report 25-92, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., October 1992. Available as a compressed Postscript file from unix.hensa.ac.uk in the file pub/misc/ukc.reports/comp.sci/reports/25-92.ps.Z; abstract in the file pub/misc/ukc.reports/comp.sci/abstracts/25-92.

Hopkins:1992:RA

[45] T. R. Hopkins. Remark on algorithm 540. *ACM Trans. Math. Software*, 18(3):343–344, September 1992.

Cunha:1993:PIR

[46] Rudnei Dias da Cunha and Tim Hopkins. A parallel implementation of the restarted GMRES iterative method for nonsymmetric systems of linear equations. Technical Report 7-93, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., May 1993. Published as [59]. Available as a compressed Postscript file from unix.hensa.ac.uk in the file pub/misc/ukc.reports/comp.sci/reports/7-93.ps.Z; abstract in the file pub/misc/ukc.reports/comp.sci/abstracts/7-93.

Cunha:1993:PLAa

[47] R. D. da Cunha and T. R. Hopkins. Porting linear algebra subroutines from transputers to clusters of workstations. In R. Grebe, J. Hektor, S. C. Hilton, M. R. Jane, and P. H. Welch, editors, *Proceedings of the World Transputer Congress*, pages 660–667. IOS, Amsterdam, 1993. Available as a compressed Postscript file from unix.hensa.ac.uk in the file pub/misc/ukc.reports/comp.sci/reports/6-93.ps.Z; abstract in the file pub/misc/ukc.reports/comp.sci/abstracts/6-93.

Cunha:1993:PLAb

[48] Rudnei Dias da Cunha and Tim Hopkins. Porting linear algebra subroutines from transputers to clusters of workstations. Technical Report 6-93, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent

CT2 7NF, U.K., May 1993. Published as [47]. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/6-93.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/6-93`.

Cunha:1993:PPCa

[49] R. D. da Cunha and T. R. Hopkins. Parallel preconditioned conjugate-gradient methods. *Transputer Communications*, 1(2):111–125, November 1993. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc. reports/comp.sci/reports/5-93.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/5-93`.

Cunha:1993:PPCb

[50] Rudnei Dias da Cunha and Tim Hopkins. Parallel preconditioned conjugate-gradients methods on transputer networks. Technical Report 5-93, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., April 1993. Published as [49]. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/5-93.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/5-93`.

Cunha:1993:UPP

[51] R. D. da Cunha and Tim Hopkins. Using parallel programming environments on clusters of workstations. Technical Report 12-93, Computing Laboratory, University of Kent at Canterbury, Canterbury, Kent CT2 7NF, U.K., December 1993. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/12-93.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/12-93`.

Hopkins:1993:CEM

[52] T. R. Hopkins and J. B. Slater. A comment on the Eispack machine epsilon routine. *ACM SIGNUM*, 28(4):2–6, October 1993. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/18-94.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/18-94`.

Cunha:1994:CATa

[53] R. D. da Cunha and T. R. Hopkins. A comparison of acceleration techniques applied to the SOR method. In A. Cuyt, editor, *Proceedings on Nonlinear Numerical Methods and Rational Approximation*, pages 247–260. Kluwer Academic Publishers Group, Dordrecht, The Netherlands, March 1994. Published as [53]. Available as a compressed Postscript file from `unix.hensa.ac.uk` in the file `pub/misc/ukc.reports/comp.sci/reports/4-94.ps.Z`; abstract in the file `pub/misc/ukc.reports/comp.sci/abstracts/4-94`.

Hopkins:2002:RAF

[54] Tim Hopkins. Remark on Algorithm 705: A Fortran-77 software package for solving the Sylvester matrix equation $AXB^T + CXD^T = E$. *ACM Transactions on Mathematical Software*, 28(3): 372–375, 2002. CODEN ACMSCU. ISSN 0098-3500 (print), 1557-7295 (electronic).
