Outline of FORM B

Below is the tentative outline for FORM B of the BLAS document.

- Introduction
  - Organization and Nomenclature
  - Overall Functionality
  - Conventions used in this document
    - global binding issues
    - etc. ...
- Dense and Banded BLAS
  - Overview
  - Functionality
    - Multiple Instance Cases
    - Etc. ...
  - Language-independent Specification (LIS)
  - Language-dependent Specification
    - F77, C, F90(?), C++(?), Java(?), ...
  - Reference Implementation
  - Benchmarking, Verification, and Validation
- Sparse BLAS
  - Overview
  - Functionality
  - Language-independent Specification (LIS)
  - Language-dependent Specification
  - Reference Implementation
  - Benchmarking, Verification, and Validation
- Distributed-memory Dense BLAS

  - Overview
  - Functionality
  - Language-independent Specification (LIS)
  - Language-dependent Specification
  - Reference Implementation
  - Benchmarking, Verification, and Validation
- Appendices
- Journal of Development
  - BLAS Thin/Lite
    * BLAS Thin/Lite functionality
    * ...
  - Interval BLAS
    * Interval BLAS functionality
    * ...
  - Environmental routines
    * Functionality
- Legacy BLAS
  - C interface
  - F90 interface
